To Whom It May Concern:

I am writing to recommend Carlos Jimenez as a competent translator for English and Spanish. As an employee for a governmental agency, I have come in contact with many people offering their services to assist me in translation while conducting on-site surveys. Carlos assisted me in this capacity and did an excellent job.

The one characteristic that I noticed and appreciated mostly in his translation assistance was his ability to *not* assist the person being interviewed with possible answers. He asked the question I needed asked and translated the answer as it was given. This is a most difficult task when the person being interviewed has dementia, which was the case on the day I used Carlos' services.

Again, I recommend Carlos Jimenez as a translator and believe he would be a good asset to anyone needing these same services.

Sincerely,

Kelly Mortenson
